SUMMARY

React Developer and IT Engineering graduate with hands-on experience in building dynamic web applications using React.js and the MERN stack. Skilled in component-based architecture, React Hooks, and REST API integration. Experienced in implementing JWT authentication and developing scalable frontend solutions using JavaScript (ES6+). Passionate about creating efficient, high-performance web applications and continuously improving development skills.

EDUCATION

Bachelor of Engineering in Information Technology

VPP College of Engineering, Mumbai

Sep 2023 - June 2026

Diploma in Computer Engineering

Navsahyadri Institute of Technology, Pune

Sep 2020 - June 2023

WORK EXPERIENCE

Oasis Infobyte

Web Development Intern

Feb 2026 - March 2026

- Developed and tested web application features using the MERN stack (MongoDB, Express.js, React.js, Node.js)
- Built dynamic frontend components using React.js and JavaScript (ES6+)
- Integrated REST APIs and handled asynchronous data flow
- Implemented JWT authentication with secure protected routes
- Debugged and optimized application performance for improved user experience

CodSoft

Web Development Intern

June 2025 - July 2025

- Built multiple frontend projects using HTML, CSS, JavaScript, and Bootstrap
- Designed responsive layouts and user-friendly interfaces
- Implemented form handling and improved UI structure
- Applied DOM manipulation and event handling for interactive features

PROJECTS

Pizza Craft - Full Stack MERN Application - <https://pizza-craft-sigma.vercel.app/pizza>

- Developed full-stack application using MongoDB, Express.js, React.js, and Node.js
- Built reusable React components and implemented component-based architecture
- Managed application state for dynamic pizza customization and pricing
- Integrated REST APIs for frontend-backend communication
- Implemented JWT authentication with protected routes
- Integrated Razorpay payment gateway with verification
- Deployed application using Vercel, Render, and MongoDB Atlas

TextUtils - React Web Application - <https://tanveewaikaar.github.io/textutils/#/>

- Built application using React.js with Hooks (useState, useEffect)
- Developed dynamic UI for text analysis features
- Managed state and handled user input efficiently
- Implemented real-time updates and component-based architecture
- Deployed using GitHub Pages

Life Receipts – Productivity Tracking System - <https://life-receipt-backend.onrender.com/>

- Developed a productivity tracking system as part of a team project
- Worked on designing user interface and improving user experience
- Contributed to activity tracking features and overall system functionality
- Collaborated with team members on project development and implementation

COURSES

FullStack Web Development Training

Feb 2025 - Present

NetTech India ,Thane

SKILLS

- **Frontend** : React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap
- **React Concepts**: Component-Based Architecture, React Hooks (useState, useEffect), State Management, Props
- **Web Technologies**: DOM Manipulation, Event Handling, Cross-Browser Compatibility, AJAX
- **Backend (Basic)**: Node.js, Express.js, Python
- **Database** : SQL, MongoDB
- **Tools and Technologies**: Postman, Git, GitHub, VS Code
- **Languages** : Marathi, Hindi, English

ACHIEVEMENTS & ACTIVITIES

- Technothon Winner (Poster & PPT Presentation)
- Appreciation Award – Event Management Head (WDC Committee)
- ITSA Committee Member
- Winner in Cricket, Volleyball, and Tug of War
